

Tamryn Ruwers - Architect

PR ARCH 24750090

I am a design architect with hands-on experience in a wide range of complex buildings and design. I enjoy taking a design from concept sketch through to construction.

As a person I am resilient, with a good sense of humour. I pride myself on being a good team player and thrive in a collaborative environment. I enjoy the opportunity to rise to new challenges and I am always eager to learn and grow my skillset.
